

ON-DEMAND WEBINAR

Embracing advances in technology as SLPs: Beyond AAC & apps

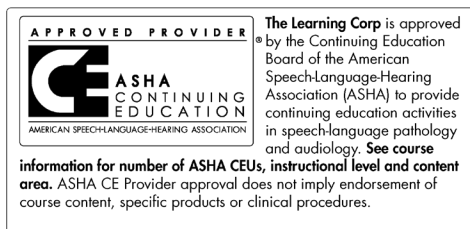

Presented by:

JOAN GREEN_MS, CCC-SLP, Innovative Speech Therapy

EMILY DE OLIVEIRA_MS, CCC-SLP, The Learning Corp

About this course:

Joan shares key insights into how she uses technology with people of all ages and diagnoses to support skills like attention, executive functioning, reading, and writing.

This course is offered for **0.05 ASHA CEUs**
(Intermediate level, Professional area)

In this webinar you'll learn how to:

- Describe how technology can be used to support language and cognition for people of all ages, diagnoses, and severity levels
- Identify at least four accessibility features and apps on mobile devices that can improve life participation for people with language impairments
- List at least 3 strategies for using technology to improve attention, memory, executive functioning, productivity, and other cognitive challenges

Who should attend:

- Speech-Language Pathologists
- Other disciplines such as Occupational Therapists, Physical Therapists, Social Workers, and Case Managers

Time-ordered agenda:

- 0:00-6:00: Introduction
- 6:01-16:11: Training technology-based strategies for attention
- 16:12-25:51: Using technology to support reading
- 25:52-31:58: Training strategies to support executive functioning skills
- 31:59-35:04: Using technology to support written expression
- 35:05-37:22: Concluding thoughts

Presenter bios

JOAN GREEN_MS, CCC-SLP, Innovative Speech Therapy

Joan Green is a Speech-Language Pathologist, Assistive Technology Specialist, and mother of 4. For over 30 years, she has helped children and adults with both developmental and acquired disabilities and has written several books and online courses to share what she knows to help others. She regularly speaks on a wide variety of communication, cognitive, literacy and learning topics focusing on sharing cutting-edge resources and strategies that empower families and professionals to improve engagement and achievement with the help of their computers and mobile devices. She is passionate about connecting with speech-language pathologists and families all over the world to help them become more tech-savvy to help individuals with communication and learning challenges. To learn more about her private practice and the services she provides online, go to www.innovativespeech.com.

Disclosures
